# PERSONALIZATION & CHARMS

Shown: Single Paw - Grey, Mission Script Font. See pg. 30.

Personalizing an urn with engraving can be done in a variety of ways including name, dates, message, or image.

## Engraving

Engraving completes any urn for your pet, making it more personal and unique. Our talented craftsmen can engrave a number of emblems or text in a variety of font styles.

## Charms

Charms are a great way to personalize almost any urn. All charms can be personalized with a small amount of text and draped around the neck of an urn.

# CAST RESIN STATUES

These life-like sculpture urns are made from cast resin and are hand colored by artists to realistic bronze effects. All come complete with a Memory Capsule, a unique keepsake designed to hold a tiny amount of cremated remains or a small memento such as a name tag or lock of fur or hair. For indoor use only, we recommend a location out of direct sunlight.

# ECO-FRIENDLY

For families who prefer an environmentally-friendly urn, Matthews Aurora™ is proud to offer choices for earth burial as well as scattering. Each urn is made from the finest biodegradable, compostable, or recycled materials. If preferred, these urns may be kept for display, as they will not breakdown until buried or exposed to the elements.

Made of a mixture of bamboo fibers and other biodegradable materials, the Biotree Urn provides a more sophisticated and contemporary solution to a beloved pet's return to the earth after life. The unique design and processing method ensures healthy growth of the provided tree seeds.

## BIOTREE®: HOW IT WORKS

Add cremated remains to the base of the Biotree Urn.

Plant seeds redeemed from the provided seed certificate, or purchase a tree sapling from your local greenhouse.

Just add water. No need to add soil, and the Biotree will treat the cremated remains.

Watch a beloved pet become a tree. Biotree Urn may be kept inside until it begins to crack, then it is time to plant the urn.

The Biotree Urn and cremated remains are returned to nature as the tree grows.

Using the included tag, the location of the tree can be geotagged and families can create an online memorial to share with friends and family.
